# TITAN BRAID

Titan Braid is manufactured with a braided polyester jacket and a braided nylon core. This pre combines the strength and durability of polyester with the elasticity of nylon creating a cord which strength of either fibres on their own.

## FEATURES

- Excellent abrasion resistance
- High UV resistance
- High strength
- Flexible
- Splicable

## APPLICATIONS

- Tow line
- Winch Line
- Rigging Line
- Pulling and Stringing Lines
- Bull Rope (see Arborist section)

Available in 600 ft. and 1200 ft. lengths with splices and hooks. For added abrasion resistance please contact us for additional information including alternative colours or specific applications.

Please contact us for additional information including alternative colours or specific applications.
