

DYNEEMA MINILINE

Manufactured with Dyneema® fibre and coated with polyurethane this 8-Strand twill braid cord is an excellent alternative to steel cable. This rope has extremely high strength, low stretch and is light weight. The polyurethane coating adds additional abrasion resistance for longer life.

FEATURES

- Extremely high strength
- Light Weight
- Abrasion resistant
- Low Stretch
- Floats on water
- Splicable
- Wear resistant
- Flexible

APPLICATIONS

- Kite line
- Fling-it(see page)

Standard Polyurethane coating is orange, other colours available depending on order. Standard lengths are 600' and 1200'.

Please contact us for additional information and specifications.
