

# DOUBLE BRAID Mult-Filament Polypropylene with DYNEEMA Core

This product is constructed with a high tenacity 100% dyneema (UHMWPE) braided core and a 100% multi-filament polypropylene braided cover. The result is a light weight, floating line with low stretch, high U.V. and abrasion resistance. The product can be constructed with a 100% dyneema core or a mixed multifilament polypropylene / dyneema blend.

## FEATURES

- Low Elogation
- Abrasion Resistant
- Lightweight
- Floating
- U.V. resistance

## APPLICATIONS

- Throw Line
- General Utility

Standard lengths are 600' and 1200'. Please contact us for pricing and additional information
